

VOERE SAFETY features for rifles K98 and model 2155/2165

Manual cocking safety

Convert your K98 rifle into a safe bolt-action-rifle

- safe by uncocking the system
- simple handling
- ready for shooting by pressing the safety knob
- carrying the rifle loaded but uncocked
- repeating after the shot without cocking again
- noiseless cocking and uncocking
- available with and without bolt lock
- complete exchange of the bolt sleeve – original cocking sleeve remains

3 position side safety

Convert the original K98 bolt sleeve by exchanging the complete cocking piece

- elegant and shapely
- 3 position safety
- flat – allows an extreme low scope mount
- 2 versions available: with and without catch
